Late Arrivals in Fall Suits & Coats

Ideally different from last season's styles

You are cordially urged to see these early models. Creations so new and different it would seem the designers have taxed their skill and ingenuity to the utmost in their production.

Style correctness is an important factor in the selection of our garments.

One of the outstanding features of the first show days of fall fashions has been the appreciation expressed by so many at the individuality of the styles made possible by a division of favor between the fitted lines on the one hand and to the straight Moven age lines on the other.

Come in today and see how well we have anticipated your individual requirements-in quality, style, color and price.
